

## **Mexican Wolf Blue Range Reintroduction Project Telemetry Flight Locations for the Week of March 1, 2010**

The Reintroduction Project provides the public with information on wolf locations with the following caveats: (1) inclement weather can limit the availability and quality of location information; (2) location information is largely limited to radio-collared wolves and un-collared wolves associated with them; and (3) wolves are mobile, so wolf location information tends to be outdated from the moment it is collected. Again, the prudent assumption for any person is that Mexican wolves might be present in any part of the Blue Range Wolf Recovery Area at any time.

### **Collared Wolves in Arizona:**

#### **Bluestem Pack (AM806, AF1042, mp1183)**

**3-1-10** Located on the Fort Apache Indian Reservation.
